BEEKEEPING LICENCE NEIGHBOUR NOTIFICATION

Applicants are responsible for giving written notice on the proposed hive to all abutting properties. This will give neighbouring residents the opportunity to identify if a household member has severe allergies to bee stings. A licence may not be approved if the hive impacts neighbouring properties.

Abutting means immediately contiguous to or physically touching, and when used with respect to a lot or site, means that the lot or site physically touches upon another lot, site, or piece of land, and shares a property line or boundary line with it.

NEIGHBOUR NOTIFICATION- I have informed my neighbours, whose properties are immediately abutting or adjacent to my property, that I will be applying for an urban bee hive site to be located on my property. (Failure to inform neighbours that a hive will be located on your property may result in revocation of the licence.)
