ACCESSORY DEVELOPMENT - COMM/IND/INST/HDRES Permit Application Checklist

Address of Property: _____

Description of Development: _____

Please ensure the following items are complete prior to submission:

- Development Permit Application Form (Attached)**
Signatures are necessary from the applicant and the registered landowner on title. Permits without landowner on title permission will result in processing delays.
- Building Permit Application Form (Attached)**
The applicant must obtain an approved Building permit within 12 months on the date of Development Permit issuance or the Development Permit will be deemed void. Provide, as necessary, CSA approvals, certifications or engineer stamped drawings.
- Electrical Permit Application Form (Attached)**
An electrical permit ensures that the any wiring in the building will meet Alberta Building Code.
- Gas Permit Application Form (Attached)**
A gas permit ensures that the temporary or permanent heat added to the building will meet Alberta Building Code.
- Five (5) Hard Copy + One (1) Digital Copy of Drawings**
A complete set of drawings will include a full set of plans, including a site plan with all measurements indicating setbacks from property lines and any existing structures. Other drawings such as building elevations may also be required.
- Fire Safety Plan (Attached)**
Only required if the construction value of your project is over \$5000. Fees apply.
If the development is over 600 m² (6 459 ft²), a more detailed fire safety plan is required.
The detailed plan is available from our office.

Advisements:

- Additional requirements may be deemed necessary by the Development Authority to ensure that the application is complete.
- The applicant should direct sub-trades to apply for the following permits if required:
Electrical, Gas, Plumbing, Propane
- The Community Standards Bylaw C16-12 is in effect.
- A Business Licence is necessary for contractors and businesses in Fort Saskatchewan.
Business Licences' can be applied for concurrently with this application.
- Fees are to be paid at time of application.

If you have any question regarding the application process or completing the forms please contact Planning & Development Services at 780 992 6198 or fortplanning@fortsask.ca. CONSTRUCTION FIRE SAFETY GUIDELINES

The primary purpose of these guidelines is to protect life and property. These guidelines are aimed mainly at contractors managing smaller work sites. Most issues at construction sites can be dealt with using simple precautions.

Street address of the site is to be posted and **clearly visible at all times** for all emergency response personnel including police, fire and ambulance. Address numbers should be affixed in a visible location at a level of about 2 m from the ground, or taped to the inside of a front facing window.

Smoking shall not be permitted in areas where conditions are hazardous or potential of ignition exists.

Fire Department Access is to be maintained at ALL times from start to completion of construction. Blocking or obstruction of access roads or hydrants with construction materials, equipment or excavation materials is not permitted.

Construction Heaters shall be connected so as to minimize danger of mechanical damage and upset and be installed on a solid level base. Temporary heaters must be placed at least 5 m from combustible tarpaulins or similar coverings. Tarps must be securely fastened to prevent wind from blowing where they could upset the heater or be set on fire.

Piping, tubing, hose and fittings shall be supported, secured and protected from damage and strain. Propane regulators shall be properly fastened within the protective cover.

Outdoor Refuse Containers shall be kept at least 3 meters from a combustible building and any building overhang or opening. Combustible waste materials in and around buildings shall not be permitted to accumulate in quantities or locations that will constitute a fire hazard. Burning of waste material at construction sites is **NOT PERMITTED**.

Hot works shall be performed only by personnel trained in the safe use of hot work equipment. A fire watch shall be provided for a period of not less than 60 minutes after its completion. At least one 4-A:40-B:C portable extinguisher and a pail of water shall be provided in the hot work area.

If fire breaks out the alarm should be raised as soon as the person discovers it and should be heard by everyone working on the site. **Immediately Dial 911. Provide the operator with a street address and a description of the emergency.**

For further information call: 780 998-4858
