Introduction

The 2009 Municipal Census was conducted by the City of Fort Saskatchewan, Corporate Services Department, Legislative Services Section. This report provides data collected between May 4 and May 19, 2009 on population, age, gender, household type, employment status and work location. More information on the 2009 Municipal Census can be obtained from:

Vivienne MacIntyre
Director, Legislative Services
City of Fort Saskatchewan

Methods

Under the supervision of the Legislative Services Section of the Corporate Services Department, enumerators entered the census information collected on individual households, institutions, unoccupied dwellings and dwellings under construction on a specially designed municipal census form (see Appendix 1).

The City contracted Pivotal Research Inc. to compile and analyze data collected during the 2009 municipal census. This report presents the results of the census in tables and figures. Where possible, census data from 2008, 2007, 2005 and 2003 are provided for comparison and to identify population trends.

Total Population

The total population of Fort Saskatchewan as of May 4, 2009 was 17,469 as shown in Table 1. The population increased by 676 residents from 2008 to 2009, which represents an annual increase of 4.03 percent (Table 2). This includes 374 residents of the Fort Saskatchewan correctional Centre.
